SEMINARS / Offered at 1PM and 2:15PM

"Madison's Constitution"

The Federalist mode of constitutionalism, to which Madison was opposed, has permitted the Court to exercise its power in anti-republican ways. How different would America be today if Madison's view of federalism had prevailed?

_Led by Dr. Jason Ross of Yorktown University.

"Origins of Judicial Review"

This seminar explores the doctrine of judicial review to expose the illegitimacy of the accepted wisdom that a Supreme Court decision is final and binding on the Legislative and Executive branches.

_Led by N.H Atty. at Law, the Hon. Gregory M. Sorg

"Why Churches and Most Christians Do Not Give Much Support for the Constitution (s) ?"

Our Founders/Framers knew that politics was often a dirty business. They offered us solutions to that age old problem. What are those solutions?

_Led by N.H. Patriot Pastor Garrett Lear

"10th Amendment Sovereignty"

This seminar explores the importance of the relationship between **First Principles** as the Framers applied them to the organization of American government and to understanding the meaning of State sovereignty as protected by the 10th Amendment.

_Led by the Hon. Dan Itse
