“America's Magnificent Constitution”

Curious as to how America rose from 13 fledgling colonies to become a world power?

Is it the “will of the people?” or more appropriately, the “written will of the people?”

What limits, if any, does the Constitution place upon Congress? The President? The Judiciary?

Are the three Branches of government really co-equal?

**“A nation that does not remember what it was yesterday,
does not know what it is today, nor what it is
trying to do. We are trying to do a futile thing
if we do not know where we came from or
what we have been about.”**
